Agenda

- I. **Campaign Promises and Possible Delivery**
- II. **Our Two Number Ones**
- III. **Advocacy, Continued**

Campaign Promises and Possible Delivery

- **A Campaign Promise: Get Rid of Dodd-Frank**
 - GFOA keeps focus on three primary components:
 - Ensuring that rating agencies use the same measures for all securities, and have increased transparency standards regarding their rating methodologies.
 - Regulating municipal advisors and derivative products are also GFOA public policies contained in the Act.
 - Finally, changes to MSRB responsibilities to the marketplace and their mission are issues of concern for GFOA
- **A Campaign Promise: Dismantle the ACA**
 - Much has been discussed, not a lot of action
 - Proposed replacement plans still contain “Cadillac Tax” components of interest to GFOA.

Our Two Number Ones

Preservation of the Tax Exemption on Municipal Bond Interest

- While there has been a great deal of discussion both pre and post-election on fixing and building new public infrastructure – and how to pay for it – tax writers are already drafting legislation that could have a significant impact on the preservation of the tax exemption on municipal bond interest.
- The Blueprint preserves the mortgage interest deduction and the charitable giving deduction, but it does not directly address the tax exemption of municipal bonds.
- The House Municipal Finance Caucus has been engaged throughout the process we look forward to work with them directly on preservation of the tax exemption in 2017

Our Two Number Ones

Marketplace Fairness and the Preemption of State and Local Government Taxes

- GFOA and our partners in the State and local government community will continue to strongly oppose any federal preemption of State and local taxing authority.
 - These measures threaten to reduce State and local tax revenues even as States and localities struggle to fund critical services.
 - Moreover, they permit Congress to choose winners and losers at the expense of other industries, individual taxpayers and families, and State and local communities.
- As Congress begins working in 2017, we expect to see a debate revisited on the *Marketplace Fairness Act*.
 - Legislation MUST be entirely based on the location of the purchaser.

Advocacy, continued...

- GFOA will also continue to promote its policies to ensure that the bank qualified limit is increased, permanently from \$10 million to \$30 million, and indexed to inflation thereafter.
- GFOA will be working with its state and local government and public finance partners to have legislation re-introduced that would classify municipal securities as high quality liquid assets.
 - The legislation introduced last year passed quickly through the House but stalled in the Senate Committee on Banking.
 - We are working with our champions for re-introduction presently.
- Focus on Pensions and Retirement
 - Keeping an eye on the Puerto Rico Oversight Congressional Panel
 - Thinking critically about additional reporting requirements for pensions discussed in both the new Congress and Administration

GFOA 111th Annual Conference
