

Delaware Government Finance Officer,

Maryland GFOA is a non-profit professional association of State, local and private financial management professionals. It is the local chapter of its international affiliate, the Government Finance Officers Association of the United States and Canada. With nearing 700 members, the MDGFOA is dedicated to the sound management of government financial resources. It provides training programs, conferences, networking opportunities, and other services to enhance the skills and performance of those involved in government finance policy and management.

Membership in MDGFOA is open to everyone whose career, studies or interest involve government financial management. Its public members form a diverse group of individuals - from entry-level employees to senior managers- who work for a broad range of governments, including State, county, city and other towns and municipalities of all sizes from Maryland regions and all states. Membership also includes representatives from accounting and actuarial firms, banks, and investment and consulting institutions.

The Maryland Government Finance Officers Association (MDGFOA) recently updated its by-laws to open up membership and a seat on our Board of Directors to finance professionals from Delaware. We are extending a cordial invitation to you to join our organization to benefit from our training and networking. Looking forward to hearing from you.
